22
Tuesday This day I came out into the stream
a board the ship and there was most
of the crew aboard they were a fishing and
mooring. aroun the ship in sailor style

23
Wendesday we turned out and found a fair wind
we took in our anchor and set sail for the sea
to try our luck on the deep waters the pilot came
out and fetched out the first mate and put
three aboard and they boten back & Ashley &
Tober then we were called aft and told the
Captain gave the laws for the voyge and we
were chosen to go in the boats I was chose in
the Starboard boat & the Wales boat called

24
Thurs

This day we were employed in breaking up the ship
for hoop Iorn hoops and looking out for Whales
I am rather sea sick so that I cant do a great
deal but I stomped about deck some

25
Fri

This day was the first day that I had taken any
food down but I took my trick on the wheel
and set at the mast head looking out for
whales but I could see none this evening I was
on my watch on deck and I was looking over
the side of the and around the ship it looked like a spar
bed of fire

Sat 26 This day as usal employed in Sailing the Ship and looking out for whales about noon the Steward cried out there she blows but she disappearer

Sun 27 This day no unnecessary work is alowed aboard the ship the Captain brought forward a bunch of testament and tracts and gave to the crew and we had for dinner some duff

28 on

This day we were employed in cleaning the decks and looking out for whales about 30 o'clock the lookout we raised a School of sperm whales the boats were lowed and they killed two and they lost one of them and they parted the whale alongside

Tues 29 
This day we cut the whale up and hoisted him in to the ship while we were cutting in the whale the Sharks were playing around the carcass the mate cut them on their bodies and then they run off

We 30 This day we comenced boiling and mincing and we kept at it till about 3 O clock the whale made about fifteen barells of oil this is only the beginning of it

July 1877

July 1 This day as usal employed in sundry jobs in the fore noon the man made a School of Whales he thought them Sperm the boats were lowered and we had a fine time pulling about 5 miles and come to get up to them they proved to be a School of Grampas so we went a board and Sailed on a go

Fri 2 This day as usal employed in sailing the Ship we made two Sails going S W

Sat 3 This day employed in seting up part of the rigging I begin to think about home and I pick my self to home mowing or most any thing

Sun 4 This day there is no meeting to go to here but I think of your going of to gather but I can read my testament their was a light wind and we went very slow

Mon 5 This day I suppose their is great doings to many places such as firing of guns rockets So they pass their time but it is different here we eat the Salt Junk and Pork to day we are employed in making Fine

6
Tues To day we are employed in Setting up Rigging and other sundry Jobs there has ben a calm to day so that it stopped our progress very much we frequently see Whales but they prove to be different fr. what We want they are from 4 to 5 miles of
7 Wed This day the wind sprung up and blew rather fresh we are employed as usal in working a pon the rigging a long towards night it begun to look rather squaly when the squal struck us it proved very small to what we feared there was a little Rain we took in some of the sail and let her keep on the course E. SE.
8 Thurs This day We had the wind right in the stern of the craft and we skipped over the water in good earnest along towards night it began to cloud up Thunder some but it did not rain much
9 Fri This morning I turned out of my Berth an went on Deck we washed the Decks down and it happened to be my turn aloft I went up and I had ben there but a few minuets when it began to rain and I come down and it rained all the morning like great guns

Laying of land on

along towards night I saw a sight most
aggreable to my Eyes it was the Island of
Flores we left the Ship and lay off and
on till the next morning

Sat 10 This morning I turned out of my
Berth and we were Sailing along close
in Shore there was a barque the which
proved to be the dragon The Bow Boat
was lowerd and the Captain got in
and went a-board the barque after
staying there a few moments he went a
shore and presently the boat come a board and
dot a couple of black fish Oil & heads for Dinner
a large boat come aboard with the Canins and fete-
hed other such as eggs baskets Cheese towards Sunset
Sun 11 from the Captain come a board we now set sail for Island Fayal
This day we are employed in Sailing the Ship with
Mon 12 This morning we come in sight of Fiall we sai-
led up as near as it could do and lowered the boat in
which I Waters we pulled the Boat a-shore and
as we drew near there was a crowd to hail with as I stopped
on the wharf and we wanted to see my Knife so I
let him have it but I did not see it again we had
to pull a board in a few minutes it got the peasen-
gers & in we Cargo till night we Boarded all over
the Town and bought Peaches and basket ware

was a great number of people on it such loads as they will carry on their heads is as surprising the Roads about look like the one to home the Ship Liverpool came in where we was Thomas there. the Captain could not get potatoes here, neither but he got Cabbage and Bannanas and Pines This day we are sailing for another Island or span Islands we came in sight of an Island by the name of Tupuai We left sailing a long and a boat came to get near the Island the wind died away and the tide was running night on so we had to tow the boats and we lay of there we laid all night the Liverpool was in there first Wednesday Early this morning I was awaken and told to get ready to go ashore so I got ready and had the pleasure of pulling about ten miles just before we got in to town the Soldiers hailed us so we had to stop for a man to come and speak English he came and spoke a few words and took a paper and said we could keep on so we kept on and left the boat to the town and went up town we purchased plenty of fruit and the people are very civilized than to the other Islands there is a great number of Soldiers on there the Captain got his things on here such as he wanted Captain Tripp was on here so at night when our Lieutenant of the Tripp went out with us we left him a board the Ship and then we went for a walk out to see the country and enjoyed all sights the Captain said he wanted to see which would get a long the fastest

This morning the Ship have in sight but in a little
while she was not to be seen then is no whales to be seen but plen
ty of work to do it dont seem to me like digging Stone but I
should like to be at home a mowing some of that grass and making
hay but there is much thing here as drawing wood and water for
Dat &c This morning it rained a little the Ship would rather
[illegible] employed in making rope yarns and sinnet I had to keep
[illegible] the Mizen chest down and then I took it down
June 5th This day we had fine weather but little wind the Ship
[illegible] knots an hour we spent the time in reading writ
ing and other things in the after noon the man called out
watch, and then I got on deck I found there was a School of
Black fish the boats were lowered and put after them but
they disgusted so the Captain thought he would have us
a little so he said put as fast as you can then he told
Sherman to stand by and throw when he threw he
told us to scatter all so he should not stave the Boat
he told us several times then he told us to the
Ship we got aboard and hoisted in the boats and stood
off again the third Mate came across a turtle and the
men fired a Harpoon at him but he [illegible]
